DAY OF THE
MEDITERRANEAN

NOVEMBER 28

2024 is a year like no other. With the finishing line of the UN 2030 Agenda for Sustainable Development fast approaching and the multiple crises faced worldwide, the next five years will be critical to shaping the future of our region.

The Mediterranean region, like a sea facing both calm and turbulence, experiences progress and hardship.

Conflicts shake our societies and raise questions about our humanity, exacerbated by the rise of **disinformation** that builds walls instead of bridges. **Unemployment and exclusion** affect our youth's future prospects on both shores, as **climate change** ravages our coasts and ecosystems, and **inequalities** continue to deepen within and across our societies. As a result, **migration** in the region appears as a symptom of deep-rooted causes that aren't yet treated properly.

But within these challenges lie **incredible opportunities**: the chance **to shape the Mediterranean we want**, built on **resilience, cooperation**, and a **better tomorrow** for all.

Grand accomplishments are only the sum of our individual voices and actions towards a tomorrow we all strive for. **The future is for us to see. The future is for us to make.**

Your Voice, Our Future

This Day of the Mediterranean, we're turning the spotlight on you. Local leaders, everyday heroes, passionate citizens, trailblazing youths, and innovative businesspeople – your voices are the key to transformation.

It's your ideas, your actions, and your unwavering belief in a better future that will chart the course for our shared Mediterranean home.

This campaign is your platform. **Let's identify our greatest challenges, ignite solution-driven conversations, and highlight the changemakers who are already building a brighter, more sustainable, and more prosperous Mediterranean for generations to come.**

We want to hear from you

What's the issue closest to your heart?
How should it be addressed?

Share it on social media and use **#MediterraneanDay** to highlight solutions, individuals or organisations driving positive change in our region.
